

Los Altos Hills Communications for Earthquakes and other Emergencies

Method	Description
Website 	<p>The Town's website will post information if the internet is available. Go to www.losaltoshills.ca.gov and click on the "In Case of Emergency" link and find Town Emergency Updates.</p> <p>⇒ Be ready for emergencies by reading emergency preparedness information on the website now. Go to "In Case of Emergency" and find "Safety Library"</p>
Emergency Alerts 	<p>Nixle is the emergency notification system used by the Town to provide emergency warning and instructions to the community. The system sends messages to all landline phones. Cell phones must be individually registered with the system. Go to http://www.nixle.com OR text 94024 or 94022 to 888777 to add your cell phone OR http://www.losaltoshills.ca.gov/emergencyalertssignup</p>
Facebook 	<p>The Town has a Facebook page and will post information if the internet is available. You do not have to have a Facebook account to monitor this page. Simply go to the link https://www.facebook.com/TownofLosAltosHills</p>
Ham Radio 	<p>Ham radio is the only communication method that has never failed in a disaster. There are over 130 ham radio operators in Los Altos Hills. All can communicate with the Town if other methods fail. <i>All ham radio operators are encouraged to register with the town as volunteer communicators.</i></p> <p>Freq. 146.745-110.9 or simplex 147.435 http://www.losaltoshills.ca.gov/157/Emergency-Communications</p>
Radio Station KFJC 89.7 FM 	<p>KFJC is the Foothill College radio station and will be used to provide information updates during emergencies or when phones are not working. KFJC broadcasts safety information at the top of the hour and on the half hour. Download iPhone app to listen from you phone or listen online at www.kfjc.org or tune in to 89.7 FM.</p>

<p>Emergency Alerts – Alert SCC</p> 	<p>Alert SCC is the Santa Clara County version of the Los Altos Hills Rapid Notify notification system and can send out countywide notices. It is a back up system for Los Altos Hills and can also send you information about what is happening in other cities in the county. Go to www.alertscc.com to register your cell phone.</p>
<p>Radio Station KCBS 740 AM & 106.9 FM</p>	<p>Alternate radio station for countywide information. Will not provide town-specific information as often as Foothill College KFJC radio. Listen on the internet at http://kcbs.radio.net</p>
<p>CERT – Community Emergency Response Team</p> 	<p>The Los Altos Hills Community Emergency Response Team is trained by the Fire Department to help the Town during emergencies. They have direct communication links to the Town. During major emergencies, you may see them walking through neighborhoods wearing green hard hats and green CERT vests or establishing a command post at Foothill College in the parking lot. Register for CERT training by calling 408-378-4010 or email communityoutreach@sccfd.org</p>
<p>Personal Communication Methods</p>	
<p>Cell Phone</p> 	<p>Do not use telephones after major emergencies, UNLESS YOU HAVE A LIFE THREATENING EMERGENCY. Making routine calls may overwhelm the phone system and prevent people from being able to call 9-1-1. Communicate with family and friends via TEXT.</p>
<p>Out of Area Contact</p> 	<p>When local phone systems (cellular and landline) are overloaded and unreliable during major emergencies, long distance calls may be the best way to communicate with family and friends. Designate a person who lives at least 200 miles away to be your family out of area contact. Have everyone in your family call that person and use him/her as your message center.</p>
